Cold chain storage are a critical and essential part of certain infertility drugs & hormones which are to be maintained in a 2 to 8o environment.

We at Aarti Medicals, ensure that:

- 1) Cold chain is maintained to the optimal best by providing facilities in the form of a 60 Sft state-of-the-art walk-in cold storage which is backed up by uninterrupted power supply in case of a power failure and a back-up A/C unit in case of unexpected failure of the existing A/C unit.
- 2) We transport it to the customer in a P.U (Polyurethane) box which is specially designed to maintain the appropriate temperature during transit.
- 3) Our trained staff deliver to the customers at the earliest.
